

Special Operations Forces Mission Rehearsal System (SOF-MRS)

The ideal Mission Rehearsal platform for Special Operations Forces JTACs to prepare for high-risk missions using geo-specific terrain, rehearse complex battlefield SOPs with non-NATO forces and maintain annual currency/proficiency requirements.

- » Utilizes Common Database (CDB) data formats
- » Setup to mission execution in under ten minutes
- » Ruggedized for extreme conditions
- » Transportable by a single operator
- » Simple user interface for ease of use with non-native English speaking forces
- » Integrated pilot station
- » Simulated and Virtual Devices available
- » Accurate mission sets when live ranges are overly restrictive, unavailable or cancelled due to weather
